- Q1. Item #687.20800225 calls for preformed symbols that are “white on a blue background.” The existing markings are white preformed symbols on top of a blue surface, with no blue background incorporated into the preformed symbol itself. White preformed thermoplastic symbols that do not include a blue background should be placed instead.
- A1. The intent is to replace the white symbols and/or letters on the existing shared-use path. After this proposed work is completed, the shared-use path is to remain its original-colored blue. Refer to the appropriate special specifications in the Proposal.
